

## 2016 IACIS Conference Program

56<sup>th</sup> Annual Conference:  
International Association for  
Computer Information Systems  
October 5 – 8, 2016  
The Inn at Opryland – A Gaylord Hotel  
Nashville, TN

“The Next Generation of Graduates in Cybersecurity:  
Evolving Curricula in Higher Education”

This is an official publication of the  
INTERNATIONAL ASSOCIATION FOR COMPUTER INFORMATION SYSTEMS

# IACIS 2016 Conference Program

PREFACE<<

Welcome to the 56<sup>h</sup> Annual Conference for the International Association for Computer Information Systems and to Nashville, Tennessee, a fun and exciting city to visit.

The theme, “The Next Generation of Graduates in Cybersecurity: Evolving Curricula in Higher Education” has been embraced by this year’s authors with many presentations discussing business intelligence, decision support, systems security and the impact of the cloud.

Papers selected for publication in Issues in Information Systems (IIS) can be accessed online at <http://www.iacis.org/iis/iis.php>. IIS is a double blind refereed, serial journal publication of IACIS that is registered with the US Library of Congress (ISSN 1529-7314) and listed in the Eighth Edition of Cabell's Directory of Publishing Opportunities in Management and Marketing. Accepted paper publications appear in IIS; accepted abstracts and panels appear in the Conference Proceedings found at <http://iacis.org/conference/conference.php>.

You continue to make the IACIS International Conference an excellent conference for our academic colleagues, and we appreciate your ongoing attendance in your continued support of the conference. Thank you for presenting your best work here as we look forward to lively and meaningful presentations, discussions and collegial networking.

Gary J. DeLorenzo  
IACIS Vice President and Conference Chair

Maria Elena Corbeil  
IACIS Secretary and IIS Editor

9:50 - 10:50	Concurrent Paper Sessions	McGavock A, McGavock B, McGavock C, McGavock D, Bellevue
11:00 - 11:45	Conference debriefing	McGavock Ballroom

# IACIS 2016 Conference Program

## >> IACIS RECOGNITION AWARDS

### **Computer Educator of the Year:**

The Computer Educator of the Year is the highest award given by the Association, and competition for the award is keen. Candidates show exceptional research and teaching skills, have made significant contributions to IS and IS education, and enjoy a national or international reputation for their outstanding work throughout the IS community. Recent recipients have included curriculum innovators, leaders in the field of artificial intelligence and IS management, and publishers of learning materials that have significantly impacted the IS educational community. Nominations for the Computer Educator of the Year are accepted from September until March, with selection made in June or July for awarding at the annual conference in the fall.

### **Ben Bauman Award for Excellence:**

Ben Bauman was a long time member, officer, Director and contributor to IACIS, and a member of the faculty at James Madison University. Ben made it his life's work to contribute to his profession and university, and to mentor junior faculty and help them realize their potential. He passed away suddenly, and in recognition of his years of service and contributions, IACIS has established an annual award in his honor.

The Ben Bauman Award for Excellence recognizes faculty excellence and service. Candidates for the Ben Bauman Award include senior faculty with significant service to their profession, university and community. Service would include taking a leadership role in professional organizations, assuming significant committee responsibilities and serving the community through civic, church and other activities. While research and scholarship are important activities for all faculty, the major emphasis when reviewing senior faculty nominations for the Ben Bauman Award will be on reviewing their significant and long-term service.

A second category of candidates includes junior faculty showing outstanding scholarship, service and great promise. It is expected that candidates in this category will not have a long record of scholarship and service, but will have recognizable achievements. The major emphasis when reviewing junior faculty nominations for the Ben Bauman Award will be on the candidate's potential and promise for a significant academic career.

Nominations will be accepted for both junior and senior faculty, with one candidate from all nominations selected each year to receive the award. Nominations for the Ben Bauman Award for Excellence are accepted from September until March, with selection made in June or July for awarding at the annual conference in the fall.

# IACIS 2016 Conference Program

## >> IACIS RECOGNITION AWARDS

### **Jay Liebowitz Outstanding Student Research Award:**

The Jay Liebowitz Outstanding Student Research Award is an annual award recognizing the outstanding student research paper submitted to the IACIS Annual Conference. While the paper may include co-authorship with other students and/or faculty, the research reported must be based on a student-initiated project. Criteria evaluated will include: 1) contribution of the research to the existing literature; 2) research methodology, data collection and analysis; 3) lessons learned; and 4) clarity of writing and presentation. Selection of the outstanding paper will be made by a committee consisting of the President, Executive Director and Immediate Past President of IACIS. The award includes a modest honorarium and recognition in the conference program. Presentation is made at the annual IACIS International Conference.

### **Best Paper and Achievement Awards:**

#### **Best Conference Pedagogy Paper:**

An award for the best paper treating pedagogical issues is awarded at the annual conference. The paper is selected from those submitted for presentation at the conference. The Conference Chair has the responsibility for making the selection and presents the award at the annual conference in the fall. There is no nomination for this award; all papers accepted for presentation at the conference are candidates.

#### **Best Conference Research Paper:**

An award for the best paper treating pedagogical issues is awarded at the annual conference. The paper is selected from those submitted for presentation at the conference. The Conference Chair has the responsibility for making the selection and presents the award at the annual conference in the fall. There is no nomination for this award; all papers accepted for presentation at the conference are candidates.

## >> 2016 IACIS AWARD RECIPIENTS

### Christopher G. Jones 2016 Computer Educator of the Year

Christopher G. Jones, Professor and Associate Dean, David Nazarian College of Business and Economics, California State University – Northridge. Professor Jones has also served as Director, Master of Science in Accountancy, Cal State Northridge; Department Chair, Information Systems and Technology, Utah Valley University; Associate Professor, Weber State University, Ogden, Utah; Director of Computer Information Systems, Woodbury University, Los Angeles; and has held several other academic appointments during his career. Business experience includes serving as a senior consultant with Arthur Anderson & Company; Director of Accounting for Lockheed Finance Corporation; Senior Consultant with Bain & Company; and Partner, Huffman, Jones & Company, Certified Public Accountants.

Professor Jones has taught in both the MIS curriculum, receiving his PhD from Utah State University in 1995 with a Business Information Systems emphasis, and the Accounting curriculum, with a BS in Accounting from Cal State Northridge, a MBA from Brigham Young with a Finance emphasis, and he is a Certified Public Accountant. He serves on several Editorial Review Boards, including the *Journal of Computer Information Systems*, serves as manuscript referee for IACIS, session chair for numerous conferences and organizations, and served as Vice-Chair, Information Technology Committee of the Utah Association of CPAs.

During his academic career Professor Jones has authored numerous referred publications, five books, several book chapters, and more than 25 Conference Proceedings. He has also received several grants from the College of Business and the Internal Auditor Research Foundation. Over the years Professor Jones has made many presentations to the American Accounting Association, IACIS, The Consortium for Computing Sciences in Colleges, The Consortium for Computing in Small Colleges, ISECON and others.

In his role as Associate Dean, Professor Jones assisted the Dean in carrying out the mission and achieving the vision of the college, and collaborated with department chairs and others to manage the day by day operations, including curriculum development and academic standards. During his time as faculty, department chair and administrator, he has served on numerous committees within his college and university, served as a Faculty Senator, and served on the School of Business Executive Committee, the AACSB Accreditation Candidacy Committee, and as advisor to Beta Alpha Psi, an international accounting honor organization. He has been recognized as an Outstanding Faculty member in the Cal State Northridge graduate accountancy program and Scholar of the Year by the School of Technology and Computing, Utah Valley University. Public service includes service as member and Chairman, Utah Community Credit Union, and active leadership positions in the Boy Scouts of America organization.

Professor Jones has a remarkable record of service to his university and profession, an impressive scholarship, research and publication record, and has gained recognition as an outstanding teacher. We congratulate Professor Jones on being selected the **2016 IACIS Computer Educator of the Year**.

# IACIS 2016 Conference Program

Deanna Klein  
2016 Ben Bauman Award for Excellence

Deanna Klein, Professor of Business Information Technology, College of Business, Minot State University, Minot, ND. Professor Klein has spent her entire teaching career at Minot State University, and over the years has taught most of the MIS curriculum offerings, including: Systems Analysis and Design; Project Management; Networking for Managers; Data Base Management; and Business Data Communications.

During the course of her career at Minot State University, Professor Klein has served on many college and university committees, including Faculty Research and Small Grants (currently Chair), MSU Student Mentoring Program, Promotion Committee, and Dean's Advisory Board. She has received several grants, the most notable of which was to investigate "Technology to Enhance Student Engagement in the College of Business." She has co-edited and written a chapter in *Strategic Data-Base Wisdom in the Big Data Era* for IGI Global, and has numerous referred publications in journals and academic proceedings. Professor Klein is the Past President of the International Association for College of Business Education – Region 5, and regularly attends and participates in professional conferences, both at home and abroad. She has also taught in the English speaking MBA program for the National Economic University, Hanoi, Vietnam. Professor Klein is currently serving in the Faculty Senate, and as Department Chair, Business Information Technology, at Minot State University.

Over the past 25 years Professor Klein has made significant contributions to Minot State University and her profession through her service as a scholar, teacher, and administrator. Her record is impressive, and we congratulate Professor Klein on being selected to receive the **2016 Ben Bauman Award for Excellence**.

# IACIS 2016 Conference Program

<b>Friday, October 7, 11:10-12:10</b>
<b>Room: Bellevue</b>
<b>Session Chair: Lelia Halawi</b>
<b>PANEL</b>
<b>KNOWLEDGE, SKILLS, AND ABILITIES OF AN INFORMATION SECURITY AND INFORMATION MANAGEMENT WORKFORCE: ALIGNING UNIVERSITY CURRICULA WITH INDUSTRY NEEDS</b>
The purpose of this panel is to strengthen an existing research effort focused on bridging the gap between industry needs for an IT/IS/MIS workforce and university curricula. We will discuss what is known about existing knowledge, skills, and abilities (KSA's) of IT workers and how those KSA's can drive change in existing university curricula
